

**AAIS**

AAIS being a multicultural group of highly motivated professionals from the aviation sectors with two decades of experience, team up with our customers to say, “YES WE CAN”. “Together we accomplish” derived from the initials of our brand name “AAIS” is our motto and inspiration behind building relationships with the end user. Our pride and the biggest niche are a direct contact with the customers.

With a vision to enhance customers’ support in the aviation sector. We have progressed to become one of the leading aviation solution providers to many of the customers in our influence market. Our customized supply chain solutions in spares, repair, and modernization. Irrespective of the size of the opportunity, our objective remains the satisfaction of the customer’s expectation.

We are the leading stockist, OEM deputy and technical solution provider to civil, commercial, military and business aircraft operators. The flexibility to adapt to the stringent supply chain requirements of diverse customers is our specific advantage. Due to our relationships with leading aircraft OEMs and aftermarket, we have developed some niche products that may be important to the aviation sector and enhance its operational readiness at lower costs and in quick time.

WHY AAIS ?

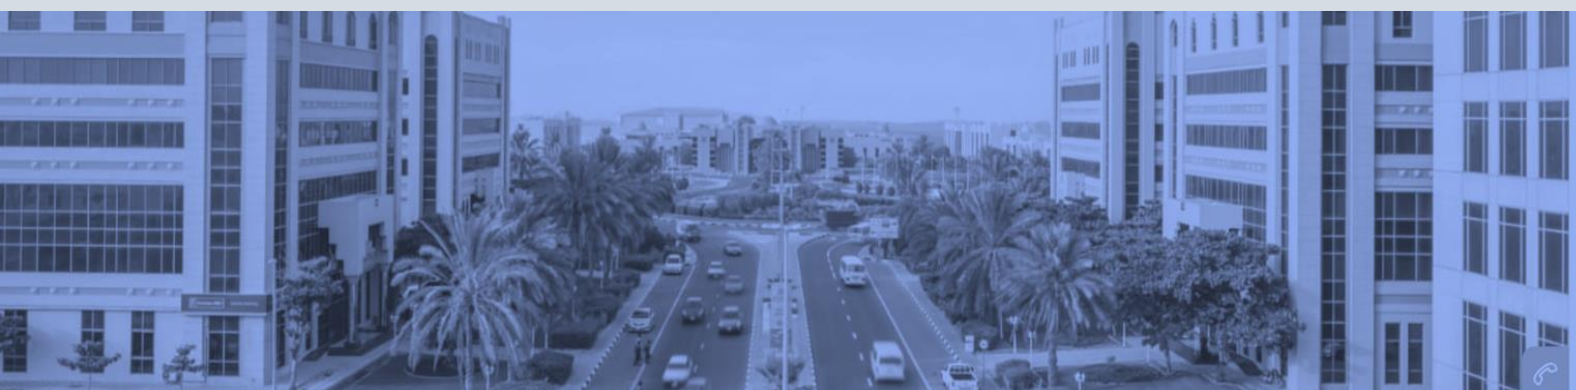

Our strategic location in UAE enables one of the world’s finest free zones that focuses on providing outstanding logistics infrastructure, giving us unfettered access to the globe. Our professional teams are eager to anticipate our customers’ needs and surpass their expectations by providing quality parts, repairs, and upgrade solutions platforms. This helps us to fulfil required deliveries to our target market within few working hours / days. We take pride in our ethos of direct contact with end users to ensure prompt support through instant communication, low lead times and competitive pricing.

Highly qualified and experienced professionals from the aviation and logistics sector staff the premises. Our efficient and highly competent in-house team ensures timely delivery to meet operational and delivery requirements.

Inward materials and equipment go through a thorough receipt inspection process to ensure they meet the highest quality and airworthiness standards. Items are stored in fully air conditioned and environmentally controlled stock rooms. High-rise racking is used to ensure efficient storage and retrieval.

Quality assurance is important to us, and we have an entire integrated department dedicated to quality management. AAIS ensures compliance with all requirements stipulated by the regulatory authorities and certifying bodies.

We adhere to the industry’s best practices for our valued customers by consistently striving to ensure that all products supplied, repaired, or overhauled are procured, stored, inspected, and handled in accordance with the standards and specifications outlined by the OEM or regulatory authorities and provide full traceability to the OEM and repair station along with monitoring all technical and support activities.

SUPPORTED PLATFORMS:

AAIS was established to service both fixed and rotary wing aircraft in the commercial and military aviation aftermarket in the Middle East, Africa, USA, Europe, and Asia. We signify a number of leading OEMs for material support of all systems of aircraft and our capabilities extend to globally recognized OEMs.

We support the following platforms;

TRANSPORT & COMMERCIAL AIRCRAFT

BUSINESS AIRCRAFT

MILITARY AIRCRAFT

HELICOPTERS

AIR CHARTER LEASING SERVICES

CHARTER AIR TRANSPORTATION SERVICES

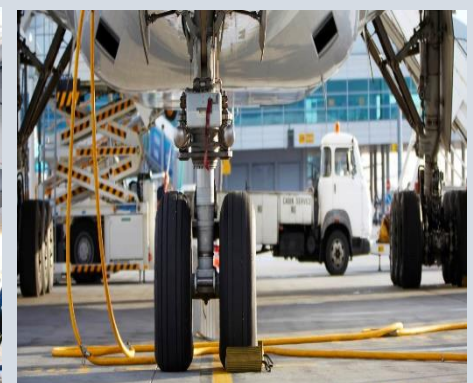

SERVICE SOLUTIONS:

OBSOLESCENCE MANAGEMENT

AOG SUPPORT

MRO SUPPORT SERVICES:

MRO MANAGEMENT

AAIS has long recognised the need to provide customers with superior aftermarket support, and we provide services that are unmatched in the fixed wing and helicopter aviation industry such as fast turnaround time, warranty cover, reliability, competitive pricing, and exchange options. Our network of service, repair, and overhaul centres, staffed with highly qualified and trained technicians, delivers testing, repair, and overhaul capability for an extensive range of products including but not limited to avionics, airframe, engine, cockpit instruments and affiliated systems.

UPGRADES & ENHANCEMENTS

We provide a cost-effective solution that optimises the service life of your product through capabilities that add avionics functionality, prevent unplanned maintenance costs, and increase your operational performance. We provide engine/APU upgrades to enhance performance and reduce operational costs. We are rated as a major source of avionics system modifications and upgrades in;

- COMMUNICATIONS
- NAVIGATION
- HEALTH USAGE AND MONITORING SYSTEMS (HUMS)
- AIRCRAFT FLIGHT CONTROL SYSTEMS
- TRAFFIC COLLISION AVOIDANCE SYSTEMS (TCAS)
- WEATHER SYSTEMS
- AIRCRAFT MANAGEMENT SYSTEMS
- INTEGRATED FLIGHT DECK
- ELECTRO-OPTICS
- NVG / SATCOM
- SAR
- CABIN ENTERTAINMENT
- EGPWS

REFURBISHMENT

We manage complete service, modification, parts, and support capabilities for most makes and models of business aircraft.

GROUND SUPPORT EQUIPMENTS

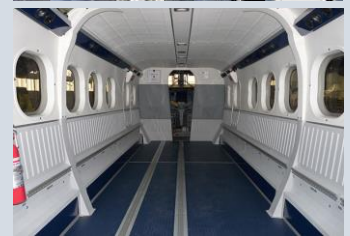

We provide a comprehensive range of highly reliable and sustainable quality solutions for aircraft and airport Ground Support Equipment (GSE) to corporate, FBO, MRO, military, airline, and general aviation customers to aid with aircraft maintenance and operational requirements.

SPECIALITY SERVICES:

MI-8 / MI-17 HELICOPTERS MODERNIZATION/UPGRADES

We have learned that Mi helicopters are being progressively inducted for airframe and engine overhauls. To gain from the ground time of these helicopters, the Air Force may consider undertaking sequential modernization. In this context we would like to propose to you the following plans;

- MI-8 / MI-17 ENGINE
- GLASS COCKPIT
- MANPADS (MAM PORTABLE AIR DEFENCE SYSTEM) PROTECTION SYSTEMS
 - INFRA-RED SIGNATURE SUPPRESSION SYSTEM (IRSS)
 - MISSILE APPROACH WARNING AND FLARE DISPENSING SYSTEM
- WEAPONIZATION
- HIGH PERFORMANCE HELICOPTER SEARCHLIGHT
- ARMOUR PLATING
- WEATHER RADAR RDR2000
- HEALTH AND USAGE MONITORING SYSTEMS (HUMS)

We would like to assure you that the proposed services would be at highly competitive pricing and of the highest quality. It will be our pleasure to conduct comprehensive presentations of each repair, upgrade, and modification proposal.
